## OPERATIONS

The Army network is a weapons system.
A well-defended and globally-extended network underpins all Army operations.

Multi-domain operations means developing combat options across all domains, including cyberspace and the information environment, to ensure the Army can fight and win.

ARCYBER MISSION

U.S. Army Cyber Command integrates and conducts cyberspace, electronic warfare and information operations, ensuring decision dominance and freedom of action for friendly forces in and through the cyber domain and the information environment, while denying the same to our adversaries.

ARCYBER PRIORITIES

▷ Aggressively operate and defend our networks, data and weapons systems

▷ Deliver effects against adversaries

▷ Increase lethality and improve readiness

▷ Attract, develop and sustain a world-class workforce

▷ Strengthen and expand partnerships

U.S. ARMY

ARCYBER BY THE NUMBERS

*Operations around the world,
around the clock:*

▶ Global <u>defensive</u>, <u>offensive</u> and <u>network</u> operations
▶ <u>$1.5 billion</u> annual budget
▶ Approximately <u>6,500 Soldiers</u> and <u>10,000 civilian</u> <u>employees and contractors</u>
▶ <u>Five</u> worldwide Regional Cyber Centers
▶ <u>41</u> cyber teams in the active force
▶ <u>21</u> additional cyber teams being built by the Army's reserve component forces

The 16,500 uniformed and civilian men and women of ARCYBER deliver offensive and defensive cyberspace effects and network operations 24/7, defending critical DoD data, networks and weapons systems and empowering Army and joint force combatant commanders and maneuver elements around the globe.

THE ROAD TO FORT GORDON

ARCYBER elements spread across three Army installations in three states began consolidating into state-of-the-art facilities at Fort Gordon, Ga., in 2020. Fortitude Hall, the command's headquarters:

▶ Serves as the focal point for ARCYBER's global operations
▶ Provides a base for institutional cyber training, establishes closer integration with Army Cyber Mission Force teams, and positions ARCYBER next to key partners that enhance its operations
▶ Increases Army readiness and technological superiority in the midst of changing threats, terrain and technology
▶ Enhances operational efficacy by establishing a single operations center for HQ ARCYBER and JFHQ-Cyber
▶ Drives progress, innovation and partnerships for ARCYBER, the Cyber Center of Excellence, Fort Gordon, the Army and the nation
